

13. (Amended) The isolated RNA-loaded APC produced by the method of claim 1.

E1 14. (Twice Amended) A method for treating a tumor in a patient, said method comprising

administering to the patient a therapeutically effective amount of the RNA-loaded APC of claim 13.

REMARKS

Reconsideration of this application and entry of the foregoing amendments are respectfully requested.

Claims 13 and 14 have been amended to define the invention with additional clarity. The revisions moot the rejection of claim 13 under 35 USC 101 and the objection of claim 14.

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached page is captioned "**Version With Markings To Show Changes Made.**"
